PROFESSIONAL SUMMARY

Software Engineering student with a technical background in Computer Science and hands-on experience in project development, team leadership, entrepreneurship, and social impact initiatives. Knowledgeable in programming, robotics, and the development of technology solutions, with participation in science and entrepreneurship fairs. Proactive and organized profile, a quick learner who works well in teams and turns ideas into practical solutions.

KEY SKILLS

- Project management and organization
- Team leadership and coordination
- Entrepreneurship and initiative management
- Project and event planning and execution
- Programming, robotics, and technology solution development
- Communication, teamwork, and problem solving

PROJECT EXPERIENCE

Entrepreneurship Fair — Company Creation
Took part in creating a company for a school entrepreneurship fair, working on project organization and on different stages of its development.
- Took part in company planning, visual identity definition, outreach, marketing, production, and sales.
- Organized the team, distributed tasks, and tracked activities.
- Developed a business proposal and the processes needed for presenting and operating the company.

Science Fair — Automatic Irrigation Project
Coordinated the group responsible for developing an automatic irrigation project, which won 1st place at the science fair.
- Developed a solution involving robotics, programming, and automation.
- Used Arduino and knowledge of HTML, CSS, PHP, and JavaScript.
- Coordinated the group, organized activities, and presented the project.

Volunteer Work — Projeto Bem Viver
Took part in a volunteer project presented at an entrepreneurship fair, carrying out a social initiative for children in vulnerable situations.
- Mobilized the community and collected clothes, food, toys, and funds.
- Organized recreational activities and a special Children's Day event.
- Experience in volunteer work, organizing social initiatives, and teamwork.

EDUCATION

Software Engineering — PUC Minas | In progress
Technical High School Diploma in Computer Science — Escola Estadual Padre Menezes | Lagoa Santa, MG | 2023–2025
Academic highlight: recognized throughout all three years of the Technical High School program in Computer Science for outstanding academic performance.

TECHNICAL SKILLS

- HTML — Advanced
- CSS — Advanced
- Python — Intermediate
- Java — Intermediate
- JavaScript — Intermediate
- PHP — Beginner
- Computer Networking — Intermediate
- Arduino, robotics, and automation

LEADERSHIP, SPORTS, AND EXTRACURRICULAR ACTIVITIES

- Led school basketball, volleyball, and chess teams.
- Took part in sports projects and activities, both in organizing and as an athlete.
- Developed skills in leadership, discipline, strategy, collaboration, and teamwork.

LANGUAGES

English: C1 French: A1

CERTIFICATIONS AND COURSES

- Python: build your first application — Alura — 2024
- HTML and CSS: practicing HTML/CSS — Alura — 2024
- Extracurricular robotics training through a selection program for outstanding public school students.
